## Service and Calibration

### A Trusted Name in Material Testing

- Prescott Instruments is a **U.K. company** with **over 30 years' experience** in material testing.
- We manufacture all instruments **onsite in the U.K. under ISO 9001** and our in-house laboratory team perform all **instrument calibrations under ISO 17025**.
- All of our service procedures **conform to our ISO 9001 certification** and all calibration is traceable to **national standards**.

### Built to Last

- **Reliability:** Our **worldwide expert team** of service engineers are fully committed to providing **high quality customer service** and consistently **meeting our customers' needs**.
- **Pioneering:** We are the **world's first company** to statically calibrate **torque standards**, whereby **ISO 17025:2017** is used as a transfer system for **dynamic calibration**.
- **Accuracy:** Our skilled engineers carry out calibrations fully compliant with **international standards**, such as **ISO 17025**.

### Our Service

- Our **Service and Calibration Services** are available on a range of machines from a **variety of brands**, not just our own.
- We offer our customers **bespoke servicing options**: you can take out a **Service Contract to cover your equipment**, or you can schedule visits when required.
- **Cost-conscious, our charges are amongst the most reasonable in the industry**, with no expensive extras such as mileage allowances or engineer expenses (UK only).
- A comprehensive **stock of parts** for most rubber testing equipment is also available with most parts being **available for next day delivery**.
- You can visit our online e-commerce store: **[rheometerspares.com](http://rheometerspares.com)**

# Service and Calibration

## Technical Specification

Prescott Instruments caters for all types of equipment within all kinds of industries within the following ranges:

- **Tension from 1 N to 200 Kn**
- **Compression from 1 N to 200 Kn**

This includes equipment for leading manufacturers such as:

- **Instron**
- **Hounsfield**
- **Lloyd**
- **Alpha Technologies**
- **Dennison**
- **Avery**
- **Testometric**

### The range of equipment supported includes:

- **All Prescott Instruments' Products**
- **Alpha/Monsanto:**
- Rheometers
- Mooneys
- Tensile Testers and associated equipment
- **Wallace**
- Hardness
- Temperature
- Density
- **Negretti Mooney Viscometers**
- **Tensile Tester & Load Cell Calibration**

Tensile testing is the mainstay of many laboratory test procedures and Prescott Instruments Ltd. holds A2LA accreditation for the force verification in both tension and compression to BS EN ISO 7500/1.
